SOCIALIZATION PROGRAM — CAMPS

The Children of Heroes Charity Fund actively implements a socialization program, in which camps play a special role. These trips are not just vacations, but also a chance for children to relax and find relief from stress and pain. The camps create a unique environment where everyone shares their experiences, helping children feel supported.

6 931 children and their caregivers attended camps in 2023-2025

434 children and their caregivers attended camps in 2026

Global software engineering company DataArt contributed UAH 1,000,000 to provide gifts for Children of Heroes. Ahead of the holiday season, the children wrote letters to St. Nicholas and shared their most heartfelt wishes. Thanks to DataArt's support, 1,056 children received what they had truly been hoping for: roller skates, dolls, plush toys, pet food, cosmetics, clothing gift cards, and other essential items.

We cannot bring back a child's father or mother, but we can fill their holidays with care and the feeling that they are remembered. Childhood happens only once. Thank you to DataArt for joining this initiative and bringing real holiday magic to the children.

«MOM'S NECKLACE» TOUR WITH A BIG MISSION

Singer **Svitlana Tarabarov** dedicated her new musical to supporting the fund's beneficiaries during the «Mamyne Namysto» (Mom's Necklace) tour. This journey carries an important social mission. Svitlana invited 500 beneficiaries of the Children of Heroes Charity Fund to her concerts to give the children moments of joy and psychological relief.

In addition, a large-scale fundraiser will run throughout the entire tour. The funds raised will be directed toward organizing psychological camps and support programs for children who have lost one or both parents due to the war. At the concerts, attendees can receive exclusive tattoos and stickers from the brands **CHER'17** and **Arley Sign** in exchange for a donation. We thank these businesses for supporting the fundraiser and for their care.

Join the giveaways for a chance to win one of the trending gifts.

«COLORS THAT REPRODUCE LIFE» IN TALLINN

In the very heart of Estonia's capital, stories began to resonate, told not with words but with paint. The exhibition features **14 artworks by beneficiaries of the Children of Heroes Charity Fund**, children who have endured the deepest losses over nearly four years of the full-scale war. Next to each painting, visitors can read a short note from the young artist, honest and unembellished, sometimes painful, but profoundly real. The event is meant to draw the international community's attention to the consequences of Russia's aggression and its impact on children.

The exhibition took place as part of the «Standing with Ukraine» program, with the support of the Tallinn Black Nights Film Festival (PÖFF), as another way to remind the world that behind every wartime statistic there is a child's story.

Yehor, 7, and Diana, 9

The children lost their mother as a result of one of the attacks on the city of Sumy. She was killed during a missile strike. After the trauma, Diana developed a nervous tic and obsessive, repetitive movements. Yehor has speech difficulties and needs fairly intensive sessions with a speech therapist. He finds it hard to trust people, and the sessions themselves are very challenging for him.

The family has received substantial help and support from the Fund and partners, including financial assistance for doctor-recommended pool sessions for Diana and speech therapy sessions for Yehor. The family has already started these sessions.

Their father notes significant positive changes. They are deeply grateful for the care, help, and ongoing support in any form. Thanks to this, the children have begun to smile more often, something that had been very rare lately.

The most significant support programs at present are:

Education and development.
This program gives children the opportunity to realize their potential even in the most difficult circumstances.

Psychological Support and Socialization is the Fund's team of specialists who provide daily psychological support to the Fund's beneficiaries and their guardians.
